SHOULD OR SHOULDN'T?

WINTER

Fill in the blanks with "should" or "shouldn't".

1. You _____ leave the house without a warm coat when temperatures drop below zero, as prolonged exposure to the cold can lead to hypothermia.
2. If you want to avoid getting sick during the winter months, you _____ wash your hands regularly and avoid touching your face.
3. People who drive in snowy conditions _____ accelerate or brake suddenly because their vehicles could easily lose traction.
4. You _____ check the weather forecast before planning a long hike in the mountains, especially if snowstorms are expected.
5. Children _____ play outside for hours without wearing gloves or appropriate footwear, as frostbite can develop in extremely cold conditions.
6. If your house feels particularly cold at night, you _____ use extra blankets rather than turning the heating up excessively.
7. During a winter storm, people _____ ignore official weather warnings, even if the sky appears clear at the moment.
8. You _____ keep some essential supplies at home, such as bottled water, canned food, batteries, and a first-aid kit, in case severe weather prevents you from leaving the house.
