1 Read Liam's blog post. Complete sentences 2–4. Then answer question 5.

Liam's blog

Make a cake, make a difference!

Last week, my friend and I talked about making cakes because we both love it. Then she started to talk about a charity that makes cakes for kids. Sometimes families can't buy or make a cake, so this charity gives one to the child for free! It uses volunteers around the country; they make the cakes in their own kitchens for children in their neighbourhood. I decided to help out on this project, so yesterday, I made a cake for someone. Check out the photo; what do you think?

So now I feel great. I helped a kid in my community by doing something I enjoy. Well, there were only two things I didn't like: washing the dishes and tidying the kitchen!

What can you do to help your local community? We can all work together to make a difference!

1 Liam's blog post is about a charity that *makes cakes for kids*.
2 _____ make cakes in their kitchens.
3 Liam made a cake and shared a _____ of it.
4 He didn't enjoy _____ the kitchen after he finished making his cake.
5 Would you like to take part in this charity? Why? / Why not? _____

_____

2 Write a comment to Liam about his blog post. Use the ideas in the box.

help children with homework | help organise a community party | help with chores
look after someone's pet | take out / recycle the rubbish | tidy someone's garden

From: _____

Hi Liam,

Your post was _____ ! I think the charity sounds _____ . And your cake looks _____ .

To help my local community, I'd like to _____ . This is because _____ and _____ .

3 How can you help children at your school? Decide on three ways with a friend.

do their homework | learn a game or a skill
learn a sport | read | study for exams | use technology | write

How about helping children do their homework? I'm good at maths and you're great at English.

That's a good idea. What about ...?
