HOW TO MAKE PIZZA

Making pizza is fun and easy! First, you need to mix flour, water, salt, and yeast in a big bowl. This will make the dough. Then, roll the dough into a flat, round shape. Next, spread tomato sauce on the dough. After that, add cheese and your favorite toppings, like mushrooms, pepperoni, or vegetables.

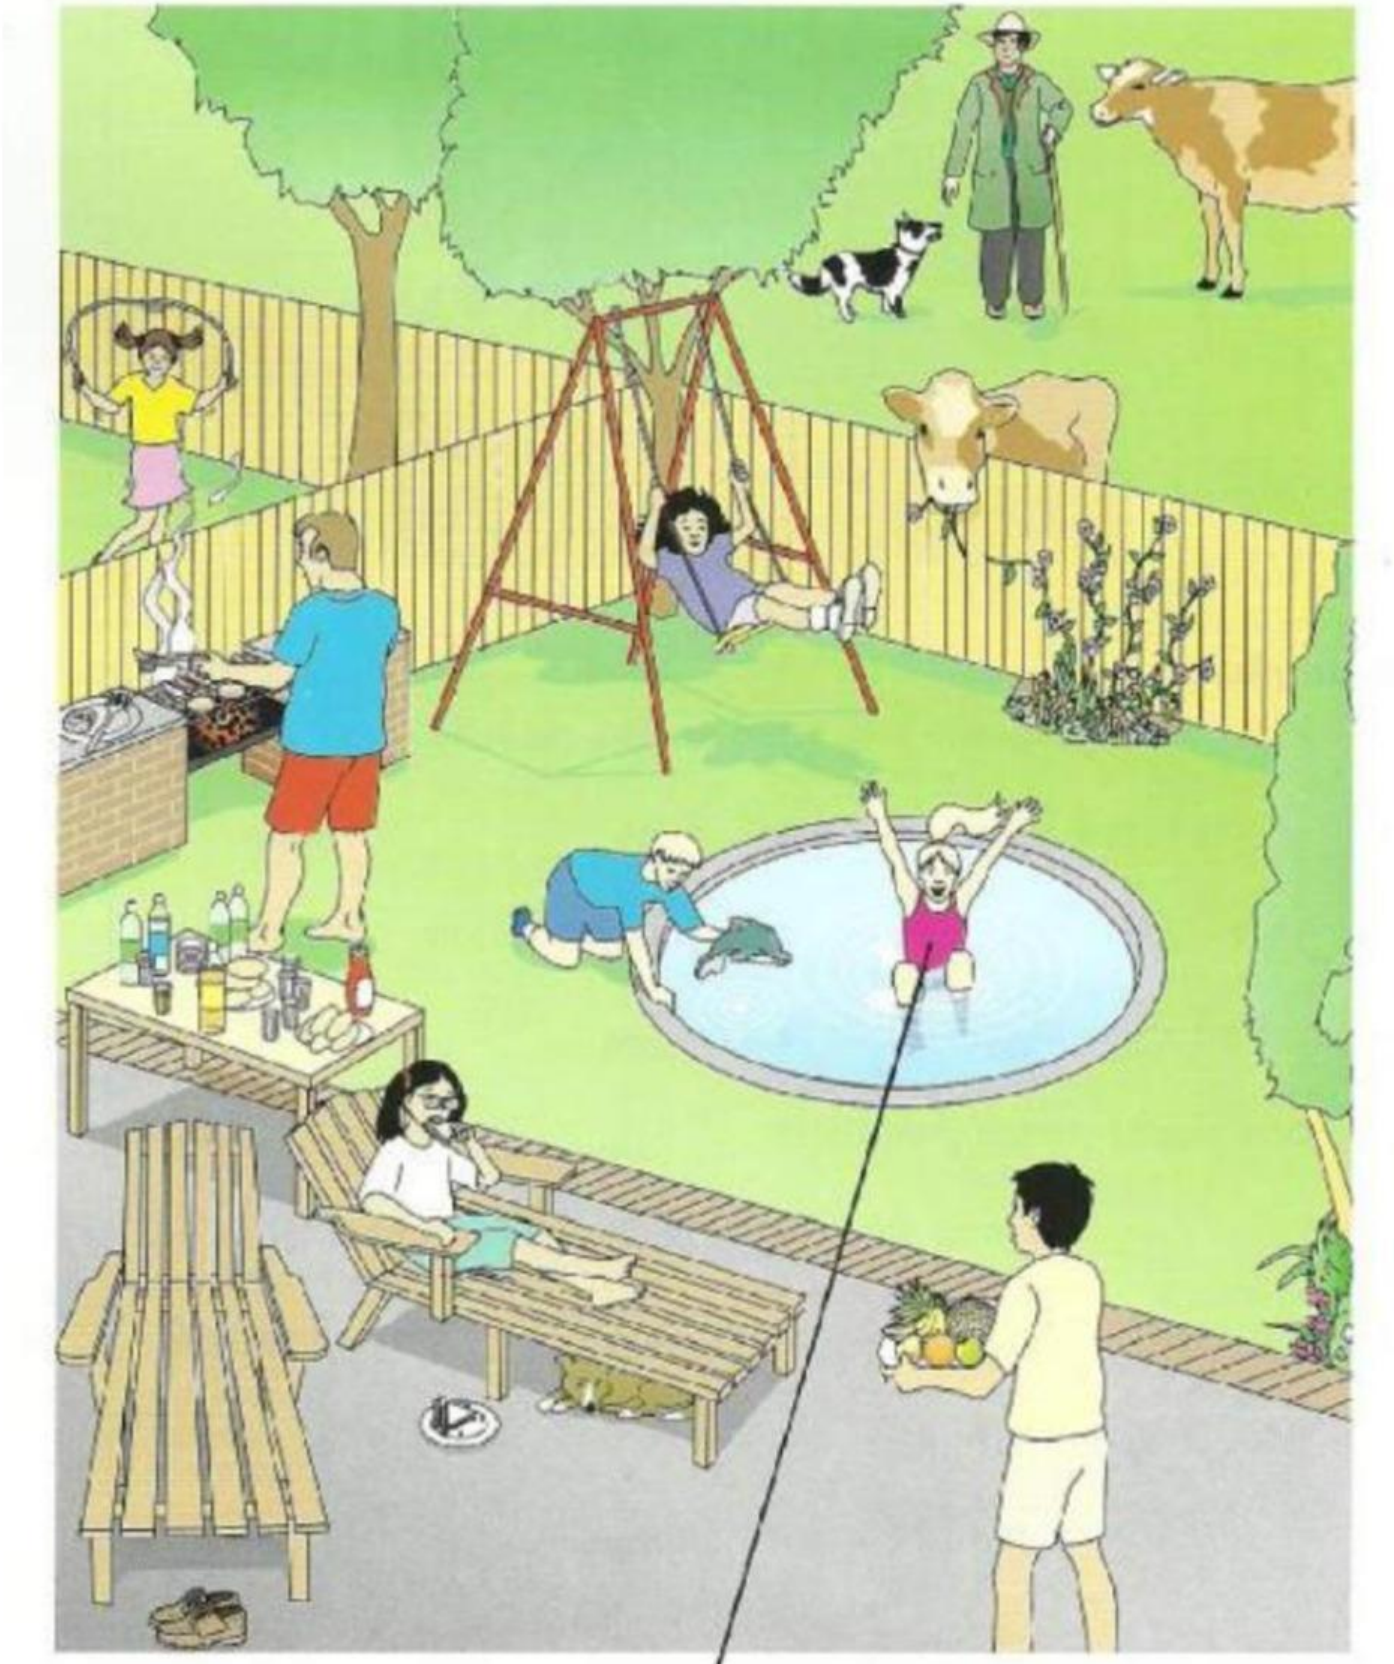

Once your pizza is ready, put it in the oven and bake it for 15 minutes. When it's done, take it out carefully and let it cool. Finally, slice the pizza and enjoy your delicious homemade treat!
