52-Week Savings Challenge

A free page from The Reserve Kit

Save a little more each week for a year. The amounts are units in any currency, the page is undated, and you can start any day. The printable tracker is on the next page.

HOW TO USE IT

1. Print the next page at 100% or "Actual size" on US Letter paper.
2. Pick a start date, where the money will go, and a variant if 52 feels high.
3. Tick a week only after the money has been moved, not when you planned to.

52-week savings challenge

Save 1 in week one, 2 in week two, and so on, up to 52 in the last week. The amounts are units in any currency. If 52 feels too high, reverse the order (start with 52) or use a half-unit version. Tick the box when the money has been moved, not when you meant to move it. Running total by week 52: 1,378.
