Read and select the ingredients on Julia's recipe.

A recipe from Spain!

I'm from Seville in Spain and one of my favourite dishes is 'gazpacho'. It's like soup, but it's cold. We eat it in summer when it's very hot. To make gazpacho, you need lots of tomatoes, some cucumber, one green pepper, one onion, some bread and some garlic. You also need some oil.

- First, chop the tomatoes, cucumber, peppers, onion and garlic.
- Put them in a mixer.
- Next, add the bread and oil.
- Then put the gazpacho in the fridge for half an hour.
- Finally, add some salt and serve cold.

Order the words. Then number.

☐ garlic. cook Then and the the prawns

☐ serve Finally, with the prawns rice.

1 chop First, garlic. the

☐ in put Next, the pan. oil
