Mata Pelajaran : BAHASA INGGRIS

## A. READ THE INSTRUCTION FOR EVERY NUMBERS!

The text is for questions 1 and 2.

Eric : Dad, something's wrong. My screen suddenly went blank.
Father : The television is off, too.
Mother : My vacuum cleaner stops working.
Father : Let me check! It's a power failure. It must be the lightning.
Eric : Can you fix it, Dad?
Father : No, I can't. We have to call the electrical center.
Eric : Oh, it will be long.
Father : Honey, can you use a broom instead of vacuum cleaner?
Mother : It will be tiring. But I'll try.
Father : Son, stop playing video game. We can play chess.
Eric : Yes. Dad.

1. The topic of the conversation is ….
   A. watching television
   B. power failure
   C. lightning
   D. family activities
   E. fixing electricity

2. "Can you fix it, Dad?"
   The word it refers to ….
   A. lightning
   B. electrical center
   C. the screen
   D. power failure
   E. electricity

The text is for questions 3 to 5.

Rendy : I heard there was a power outage in your village last night.
Vanya : That's right. It was due a lightning storm. The electric crew is still working on. We still can't use the electricity. I took a bath in the public restroom this morning.
Rendy : Poor you! Anyway, did you unplug your electronic devices last night?
Vanya : Yes, my dad had reminded us.
Rendy : That's good. If not, your devices would be broken. My big brother's cellphone was broken because he forgot to unplug it when a lightning hit my village last week. He was charging his phone. Then, there was a thunderstorm and suddenly a blackout happened. When he checked it, he could not turn on his phone.
Vanya : Oh, that's a pity! Well, we should unplug our appliances during a thunderstorm because lightning can strike home and overwhelm electrical system. Unplugging IT when not in use can also save electric bill.
Rendy : I agree with you.

LIVEWORKSHEETS

3. What are the speakers talking about?
   A. A thunderstorm.
   B. A power outage.
   C. How to save energy.
   D. Electronic devices.
   E. How to charge a cell phone.

4. Why did Vanya take a bath in the public restroom?
   A. The electricity at her village as still being fixed.

   The synonym of the underlined word is ….
   A. overlap
   B. over
   C. overhang
   D. overpay
   E. overpower

The text is for questions 6 to 8.

Lina : How was your holiday, Beta?
Beta : It was fun. I visited my uncle.
Lina : Your uncle? Does he live in a remote area?
Beta : Yes, he does. That's why it was fun for me. You know what? All houses in the village use solar panels.
Lina : What are solar panels?
Beta : A solar panel is a device that converts sunlight into electricity.
Lina : Did you mean something like glass roof tiles?
Beta : That's right! Solar panels are good for environment.
Lina : I think our neighborhood should use solar panels, too. It will save energy.

6. What are the speakers discussing?

   A. transfer
   B. hold
   C. chance
   D. turn
   E. catch

LIVEWORKSHEETS

The text is for questions 9 to 12.

**Why We Should Be Careful in Using QR Codes**

During the pandemic, QR codes surged in popularity as a great contactless option for business, and now it seems they're here to stay. In my opinion, using QR codes is not too safe for payment methods. You should be careful when you use QR codes in public facilities.

Experts warn QR codes can be easily manipulated by criminals and you shouldn't let your guard down when it comes to using them. QR codes are easy to use-scan them with your smartphone camera to access a website or get more information about something.

Scammers can tamper with QR codes in order to steal your personal or financial information. In some cases, they paste a fake QR code over the real ones, or they may send you a QR code directly, via text or email, and say it's linked to a free gift coupon.

From those reasons, it is right that QR code is easy to use but you should be careful when using it. If not, criminals would steal your personal information. So, you shouldn't let your guard down.

9. The topic of the text is ….
   A. Covid-19 pandemic
   B. QR codes
   C. scammers
   D. contactless payment
   E. phone malware

10. What is the writer's opinion about the issue?
   A. QR codes gains popularity.
   B. Scammers can steal our personal information.
   C. QR codes are easy to use.
   D. Cashless payments are inconvenient.
   E. Using QR codes for payments is not too safe.

11. "In some cases, they paste a fake QR code over the real ones..."
   The word "they" refers to ….
   A. QR codes
   B. the real ones
   C. criminals
   D. public facilities
   E. scammers

12. How do you use QR codes?
   A. Swap them to the particular machine.
   B. Scan them to the smartphone camera.
   C. Give to the cashier.
   D. Put the codes to the machine.
   E. Take a card inside the machine.

The text is for questions 13 to 15.

| C. Therefore | | 3. To state reason |

The text is for questions 31 to 33.

In a remote Gunangi Suai, located in the central highlands of Papua New Guinea, a group of families used kerosene lamps, torches, figs, or firewood for light. One day, Waula and other villagers decided to make a life-changing impact in their community. Since there was a big river near the village, the community started the Perige Suai Hydropower Project.

Building a dam was not cheap. The Gunangi Suai Community took it upon themselves to finance the new electricity source. They contributed and raised funds to order a turbine from China.

With participation from the river to the project site. Women and children cooked for those who worked long hours in the sun. everything was done by hand. Eventually, a house for turbines was erected.

31. The renewable energy used by the villagers is ….

32. The problem of Perige Suai Hydropower Project is ….

33. "They contributed and raised funds to order a turbine from China."
The word "they" refers to ….

The text is for questions 34 and 35.

Business can use QR codes to enable contactless payments, enhancing the customer experience by offering a quick, easy, and safe way to pay. For example, a coffee shop could display a QR code at the counter, which customers could scan with their mobile banking or digital wallet, then input the amount they need to pay, and confirm the transaction. Similarly, an e-commerce website could include a QR code at the checkout page for customers to scan and complete their payment without needing to enter credit card details.

34. The argument above is supported by evidence in the form of ….

35. The purpose of the text above is to persuade … to use QR codes to enable contactless payments.

LIVEWORKSHEETS

**B. ESSAY. READ THE TEXT, THEN ANSWER THESE FOLLOWING QUESTIONS!**

The text is for questions 1 to 5.

> I got my first debit card when I was 14. Later, I saved up money for a gap year, by working, and I put the money into a savings account. I avoided credit cards. Skip forward to 2018, and I was living and working in Beijing, China, as freelance journalist. All around me, Beijing residents were paying for everything using just their smartphones. They would walk up to a counter of a restaurant, shop, or convenience store, and offer up a QR code for the cashier to scan. Once scanned, the online system would immediately deduct the exact amount owed by payer's e-wallet. No fumbling for cash and waiting for change. No swipe of a plastic card either. The transaction would take seconds.

1. What is the issue of the argument?
2. According to the text, what payment methods are used by the writer?
3. How do Beijing residents pay the goods they buy?
4. What can you conclude about the payment system presented by the writer?
5. What's your opinion about digital payment?
