

## Should School Be Year-Round?

I do not think school should be year-round. Do you think school should be year-round?

Firstly, without summer vacation, students would not be able to go on family vacations. If a student wanted to go to a sleep away camp, they would not be able to do it. At camp you learn how to do things on your own. Secondly, if school was year-round, older siblings would not have time to teach younger siblings how to swing or climb trees. Teachers would also not have time for vacation. Even if you are not at school, you can still learn things. Teachers can also learn things outside of school. Thirdly, kids need to get their energy out. They can get it out by doing big races. In summer it is very hot indoors and children would be thinking about outside, and not school. Children usually like warm or hot weather. I know that towards the end of the year, I look forward to summer vacation and I think other children do too!

If students want to learn more things in the summer, they can take classes about that subject. For all these reasons I do not believe school needs to be year-round!
