The novels of Charles Dickens

Many people believe that Charles Dickens was the greatest English novelist ever. He lived in the nineteenth century and wrote many novels and short stories. Some of these have been made into films and TV series.

His most famous novel is probably *Oliver Twist*. It is the story of a young orphan who runs away from an orphanage and is tricked into joining a band of thieves in London. Most people know this story even if they haven't read it, because it was made into a very famous musical and film which has been seen all over the world.

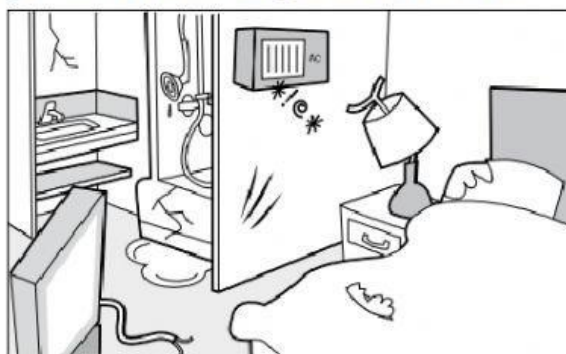

David Copperfield is another very well-known Dickens story. It is based on the author's own life, and tells the story of a poor boy who had a hard childhood but after many difficulties became a very successful writer.

Great Expectations is another dramatic novel where a poor boy becomes a rich man and leaves his village. But the young Pip does not find success through his own hard work but because a mysterious person gives him money. However, in the end Pip loses his fortune but finds something more important.

Almost all of Dickens' novels take place during the 19th century, when Dickens lived. They show the terribly difficult lives poor people had at that time. One exception is *A Tale of Two Cities* which is about the French revolution, which happened in the century before Dickens was born. It tells the story of two men who look exactly the same, one good and one bad. The good man is going to be killed by French revolutionaries but changes places with the other. So the bad man dies and the good one is allowed to live.
