Favourite times

In the UK the third Monday in January is the most depressing day of the year, says psychologist Dr Cliff Arnall, who calls it Blue Monday. Why? Because it's winter, the weather is usually grey and cold, the days are dark, and Monday is the first day of the working week. People are also often short of money after Christmas, and some people feel bad after breaking their New Year resolutions. And the happiest day of the year? 'The third Friday in June,' says Dr Arnall. And it's easy to see why – it's summer, it's warm outside, the evenings are light, and the weekend starts now!

We asked our readers about the days and times during the year that make them feel good.

- 1 What's your favourite time of day? Why?
- 2 What's your favourite day of the week? Why?
