

THE CROCODILE

This is a crocodile. It's got four legs, a long tail and a big head. It's got big teeth and scales. It hasn't got wings and feathers.

A crocodile is a vertebrate because it has got a skeleton. It's a reptile. It is a carnivore because it eats other animals.

It can swim and walk. It can't jump, run and fly. It lives in the jungle.

- Now, you are going to describe an animal. Choose an animal and write about it.
