Across

1. A large quantity of water flowing in a channel to the sea.
4. This looks like a mountain but it can be dangerous to live near one.
7. It is a natural place. It's a hollow into a hill or a mountain.
11. It's a tower with a powerful flashing lamp on the coast.
13. This structure is manmade. It's long and narrow. It goes under a river or through a mountain.
14. A very large body of salt water. It covers nearly three fourths of the surface of the Earth.
16. A body of water smaller than an ocean.
17. It's a large floating mass of ice.
19. This structure is manmade. It's a wall built across a river to collect water.
20. This is usually near the city. It's very busy and planes stop here.
22. It's a piece of land with grass, flowers and shrubs.

Down

2. This is an area of land. It's between two mountains. It's lower than the mountains.
3. This is a natural place. It's where a river falls off a mountain or a high place.
5. A large area of land, usually in a hot region. There is almost no water, rain, plants, ...
6. This is a natural place. It's very tall and very big. Everest is a famous one.
8. This is a piece of land. It can be small or big. It's in the middle of a lake or an ocean.
9. This is an area of water. It's bigger than a swimming pool and smaller than an ocean.
10. This structure is manmade. It's tall and narrow. We often use it to send radio signals.
12. This is a very tall building. There are lots of these in New York.
15. A long narrow stretch of water made for boats to travel along.
18. This structure is manmade. People walk or drive a car on it. It sometimes goes over a river.
21. You can see this in warm oceans and lots of sea animals live here.
