NYC stands for :

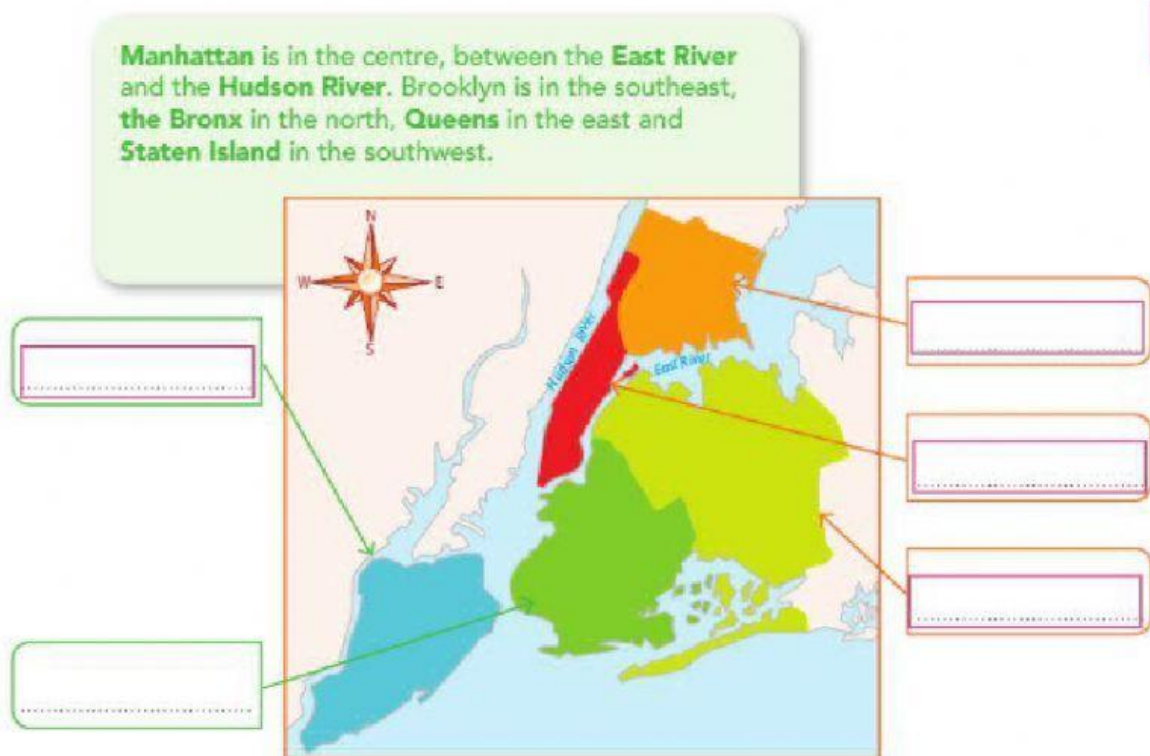

N..... Y..... C.....

What's the nickname of the city?

1. Spot New-York on the map

2. Read the text, label the 5 boroughs according to the directions (North / East / West / South)

Help!

100 = one hundred
1,000 = one thousand

The Empire State Building
is one thousand four
hundred and fifty-four
feet tall (1,454 ft).

3. Read the quick facts and write the numbers, then match them with the correct information.

two hundred and twenty-eight:

five:

twelve

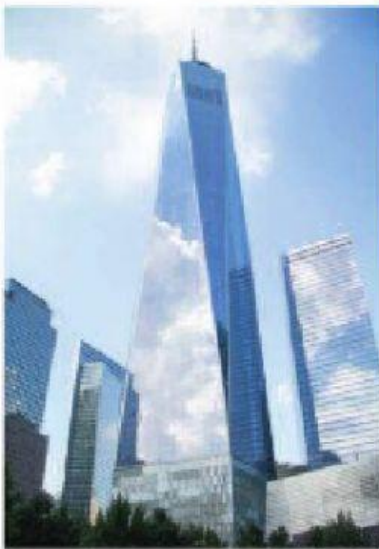

eight point five:

thirteen thousand:

two hundred:

- number of boroughs
- number of cabs
- number of languages
- number of streets
- number of avenues
- million inhabitants

4. Use the map and name the buildings

1,776 ft

1,454 ft

1,046 ft

5. Now write the numbers and find out the corresponding buildings.

1,776 : is
..... feet tall.

1,454 : The is
..... feet tall.

1,046 : The is
..... feet tall.
