

REGULAR VERBS - PRACTICE

Jenna, Ronald and Mary have an amazing story to tell you about their last camp, but there are some verbs missing. Can you help them?

Write the past simple tense (affirmative or negative) of the verbs.

Last summer, Jenna, Ronald and I (Mary) went to a summer camp in the North of Spain. There were many kids like us: some were tall, some had freckles, glasses or wavy hair. All the monitors had a white and green uniform and red trainers, so we _____ (recognise) them easily.

One night, a magician came to the camp. He was old and very short. He had got a long grey beard and a blue tracksuit. When he _____ (start) to talk, he _____ (open) a little white box. He _____ (not explain) the content of the box, but we _____ (imagine) there was a little bunny or another box inside.

Then, he _____ (borrow) Jenna's yellow cap, put it inside the box and it suddenly _____ (disappear). What _____ (happen)? Everybody was impressed and _____ (applaud) until their hands hurt. But we _____ (not believe) it. When the show _____ (finish), we _____ (ask) him how he did it, but he _____ (not want) to tell us. It was a secret!

The next day, we _____ (discover) the trick. There was a little mirror inside the box, and the cap was behind it. It was so easy! We all _____ (laugh) so much!
