The best thing about living in a country that has four (1) \_\_\_\_\_ is summer. Everyone looks forward to it. (2) \_\_\_\_\_ is a time when we have picnics in the (3) \_\_\_\_\_ and the sky is always blue. I go to the beach a lot in the summer and go (4) \_\_\_\_\_. It can never get too hot. I live in a country where summers are nice. I'm not sure if I could live somewhere where summers are unbearable. I like (5) \_\_\_\_\_ for summer clothes. I usually wait until autumn when summer clothes are on sale. They're not really in fashion for the next summer, but I don't care. One thing I don't understand about summer is summer holidays. Everyone I know goes to a warm country in the summer. That's crazy. It's warm here. Why not go to a warm country in the winter?
