

The importance of English in Computer Science

The reasons for the importance:

- Most of the technology is developed in English-speaking countries.
- Most of the information and books available are in English.
- The software update is first performed for English systems.

1. Complete the chart with the main English-speaking countries in the world.

	FLAG	COUNTRY (initial letter must be capitalized)	NATIONALITY (initial letter must be capitalized)
1		<i>The United Kingdom</i>	<i>British</i>
2		The	
3			
4			

2. Locate the countries in the map. Use the numbers (1-4) from exercise 1.

3. Write the numbers in red in letters.

- There are more than **7,100** (.....) languages but English is dominant online because it is considered a 'universal language'.
- Around **75** (.....) % of the world's population doesn't speak English.
- English accounts for **55** (.....) % of all online content today yet less than **20** (.....) years ago it was more than **80** (.....) %.
