EVENTS THAT DEFINED HISTORY AND CHANGED THE WORLD

The American Revolution (1775-1783) took many ideas from the early civilizations of Greece and Rome. They combined them with the Christian Bible. They revolted against an authority that was unbending. They believed that every man was equal and should be treated fairly. When the men and women of the new world rose up together there was a solid foundation for the beginning of an important nation. In our modern world it influences much around the globe. When an election is held in the United States, the world watches.

They originally fought over taxation without representation.	
The aim of the revolution was to give rights to all people.	✓
The United States is a world power.	✓

The Protestant Reformation (1517-1648) was one of the greatest events in European history. Before this period, the Roman Catholic Church had absolute control over the people and governments of the Christian world. The intent of the Reformation was to reform the Catholic Church and bring it back to its biblical roots. The end result was a split of the church into Catholics and Protestants. The Reformation brought the religious texts into the hands of people and began the decline of the Catholic power. Both the wars it caused and the actions of the famous historical figures it involved still continue to shape the world today.

The Protestant Reformation started with Martin Luther's 95 Theses.	
The Protestant Reformation changed the Catholic church.	
The Protestant Reformation had a lasting impact on the world.	

One of the greatest and most influential inventions of all times was The Gutenberg Printing Press. Gutenberg took the idea of printing from Asia but made it much easier and more efficient with his press. The first books he printed were Bibles. They were all sold before he even finished them. The printing press greatly improved reading, education, and knowledge.

There are few other events that could be called as influential as the Gutenberg printing press.	
First, Gutenberg made copies of the religious texts.	
Before the invention of the printing press, monks would spend hours and hours to make copies of texts.	

From the 18th and the 19th centuries, something amazing came out of Britain. Before, manufacturing mostly came out of people's homes or at shops. Suddenly, all that shifted to major factories with machines mass-producing all kinds of textiles. It's called the Industrial Revolution. It changed Britain, Europe, and America from mostly agrarian societies to urban and industrial. Out of it came major innovations like trains and automobiles. Even though it provided serious challenges for the poorer classes, it improved the lives of the middle class.

Prior to the Industrial Revolution, manufacturing was often done in people's homes.	
The Industrial Revolution improved transportation.	
Industrialization brought about a better standard of living for some.	

By 1914, there were new technological innovations like tanks, machine guns, and deadly gases. With the growing sense of nationalism Europe had a number of factions just waiting to go to war. So, on June 28th, 1914, Arch-Duke Franz Ferdinand II, heir to the Austro-Hungarian Empire, toured Sarajevo to inspect the armed forces in Bosnia. That was something Serbian Nationalists weren't happy about. Ferdinand and his wife were shot by Gavrilo Princip, a Serbian Nationalist. The Serbian government was blamed for the attack which sparked World War I.
