A. If you want to develop your logical thinking and you like numbers, **SUDOKU** is worth a try. You must have seen the number blocks although Sudoku became widely popular only a few years ago. The point of the game is to complete each subgrid with the missing digits from 1-9. What's more, each horizontal and vertical line should contain the digits as well. Seems like an impossible task at first but practice makes perfect, doesn't it?

B. You hear **CROSSWORDS** and you probably react with 'What?? My grandparents do them'. That may be true that older generations enjoy doing crosswords as part of their daily pleasures. However, give a crossword a go and you may be surprised how fast you'll get into it. How can you benefit from doing crossword? First, you learn about the world. Next, you develop your creative thinking as definitions are unusual. Finally, crosswords teach you how to complete tasks from start to finish because an unsolved crossword will follow you until you manage to complete it.

C. **TIC-TAC-TOE** is a pen-and-paper game that all kids around the world play in their childhood. When you're a kid, trying to create a line of three circles or three crosses makes you feel excited. It also develops your strategic thinking. Why not come back to it even when you're an adult? There are plenty of online versions. The level is up though because there are more lines. Play a basic 3 x 3 grid with kids and a more extended version with your friends!

It's the fifth time when our city will host the national role-playing game convention. It's the most important event of this sort in our country. It has been held every two years since its beginning 10 years ago so we feel proud to be the only host so far.

Because of the fifth anniversary, the organisers are planning numerous surprises and special attractions.

The convention will take 3 days Fri-Sun, 9 a.m – 9 p.m. Various tickets are available: day tickets, special event tickets or weekly passes. Book online only. Big price reductions are offered to those who will decide to dress up as a game character.
