Nowadays, you can't be successful or reach if you don't have good education. Fortunately, education in Ukraine is free and parents can decide how to educate their child. Children can study in public or private schools; they can get knowledge online or offline.

At the age of 2 or 3 children go to the, where they learn how to eat and get dressed by themselves. They also learn letters, numbers, how to draw and poems, sing

At the age of 6 children go to They learn to to a teacher at the lessons, some facts and speak in public. Their teacher them to count, read, write and retell the texts. Children have ato know what subjects they have every day. They are lucky to learn not only their mother tongue but also languages such as English, French or German. In the fourth form, children have to tests well so that theylots of information for tests carefully and hope to get good They know that they mustn't in a test cause it is dishonest.

Then go to the school where they have lessons in different classrooms. They carry in science, do physical exercises in the or play football on the Students can borrow books in the or have a bite in the school during the break. On rainy days they leave coats in the and have great concerts in the At secondary school, students have lots of important such as Physics, Chemistry, Geography, History and Literature. The teachers do all their best to develop students' mind and make them more while the form helps them solve some problems at school.

They also have a great opportunity to new friends and get on well with both adults and peers.

At the age of 16 every student has to exams and decide to go to a school and prepare for a or enter a and get ready for a future job.

Anyway, a school is the place where we get education, which is the passport to the future and the key to freedom and success.
