Hi Ellie,

How are things? I'm not OK. I've got a problem. You see, I'm looking after my neighbours' goldfish while they're on holiday. Everything was fine until yesterday when one of them died. I think I gave it too much food.

Or maybe it was ill and now all the other fish are going to get ill and die, too. Actually, I have the flu at the moment. Maybe, it got the flu from me. But goldfish don't get the flu, do they? Do they get ill? I just don't know.

Anyway, what should I do? Calling my neighbours is only going to upset them, isn't it? I could buy them a new one. Or is that a stupid idea?

Write back as soon as you can.
