

Treballem la relació entre multiplicació i divisió

Completa com al exemple

$2 \times 4 = 8$

$8 : 2 = 4$

$8 : 4 = 2$

$3 \times 2 = \underline{\quad}$

$\square : \square = \square$

$\square : \square = \square$

Completa com al exemple

$$5 \times 3 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

$$6 \times 4 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

Completa com al exemple

$$2 \times 5 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

$$7 \times 3 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

Completa com al exemple

$$4 \times 3 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

$$8 \times 2 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

Completa com al exemple

$6 \times 5 = \underline{\quad}$

$\square : \square = \square$

$\square : \square = \square$

$9 \times 3 = \underline{\quad}$

$\square : \square = \square$

$\square : \square = \square$

Completa com al exemple

$7 \times 4 = \underline{\quad}$

$\square : \square = \square$

$\square : \square = \square$

$8 \times 5 = \underline{\quad}$

$\square : \square = \square$

$\square : \square = \square$

Completa com al exemple

$$5 \times 9 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

$$7 \times 8 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

Completa com al exemple

$$6 \times 7 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$

$$2 \times 9 = \underline{\quad}$$

$$\square : \square = \square$$

$$\square : \square = \square$$
