

Name: _____ Date: _____

The Digestive System

Label the parts of the digestive system. Choose the correct option.

Write the names of the following organs.

Drag the organ and drop it to its correct function.

small intestine

teeth

stomach

esophagus

large intestine

Organ	Function
	They chew the food.
	It connects the mouth to the stomach.
	It absorbs water and salt and eliminates feces.
	It mixes food with special liquids and digestion starts.
	It is a long tube that absorbs nutrients.

Put the numbers 1, 2, 3, 4 and 5 in the order in which digestion happens.

- ☐ The food goes down the esophagus and enters the stomach.
- ☐ Finally, water gets absorbed in the large intestine and feces gets eliminated from the body.
- ☐ In the stomach, the digestion starts.
- ☐ The food goes to the small intestine and nutrients are absorbed.
- ☐ We chew the food in the mouth with our teeth.
