## Lesson: Adding Integers using a Number Line

7.NS.1b

The first addend tells you  
where to start.

The second addend tells you  
where to go and in which  
direction.

positive = right

negative = left

Where you land is your  
answer!

**Directions:** Use the number line below to solve the following problems.

1.  $-7 + 9$

2.  $-8 + (-1)$

3.  $12 + (-6)$

4.  $-1 + 5$

5.  $20 + (-9)$

6.  $-15 + 7$

7.  $12 + (-18)$

8.  $-1 + 13 + (-22)$
