Creating and Processing Online Surveys

According to the “10 Advantages of Online Surveys” of SmartSurvey.co.uk, online surveys are great way to reach and engage with your target audience and these are as follows:

- Increase response rates by reaching your target audience fast
- Conduct market research at a fraction of the usual cost
- Get real-time results for quick and easy analysis

Online survey is a study that aims to gather data to get the particular view, belief, or opinion of a group of respondents about specific issue or topic. This survey is conducted through the internet using particular website and cost less than having a traditional paper survey form.

Here are some of online survey tools that you can use for free:

1. Google Forms (forms.google.com)
2. SurveyMonkey (surveymonkey.com)
3. FreeOnlineSurveys (freeonlinesurveys.com)
