

Let's create our own short paragraph!

 **+** **Transportation problems** 

You won't Believe what happened on one of my trips. First of all, we **had mechanical problems** with the car in La Ceiba. Then, I **got seasick** on the ferry on the way to Roatan because we **missed** the bigger one. We should have traveled by plane. The hotel was wonderful, we could enjoy it more. For the return we traveled by plane but, the transportation problems didn't stop there, we **had an accident** when we **went through security** because we shouldn't carry metal things, so an **agent** had to change our **boarding passes**. It was a horrible experience, it could be better without the transportations problems
