

# Rivers and watersheds in Europe

## 1-Look and choose.

## 2-Look at the map. Choose rivers from each watershed (from east to west).

|                                |                                                                                             |                                |                                |                                |
|--------------------------------|---------------------------------------------------------------------------------------------|--------------------------------|--------------------------------|--------------------------------|
| <b>Mediterranean watershed</b> | Rivers have a low and irregular flow because of droughts in summer.                         | <input type="text" value="P"/> | <input type="text" value="R"/> | <input type="text" value="E"/> |
| <b>Atlantic watershed</b>      | Rivers have the highest flow in Europe since they run through areas with abundant rainfall. | <input type="text" value="W"/> | <input type="text" value="V"/> | <input type="text" value="O"/> |
| <b>Black Sea watershed</b>     | Rivers are very long with a high flow, so they are navigable by boat.                       | <input type="text" value="E"/> | <input type="text" value="R"/> | <input type="text" value="L"/> |
| <b>Arctic watershed</b>        | Rivers in this watershed have a very high flow, and they freeze in winter.                  | <input type="text" value="T"/> | <input type="text" value="D"/> | <input type="text" value="D"/> |
| <b>Caspian Sea watershed</b>   | Rivers in this watershed are long with a high flow, including the longest river in Europe.  | <input type="text" value="P"/> | <input type="text" value="N"/> |                                |
|                                |                                                                                             | <input type="text" value="V"/> |                                |                                |

Dnieper, Pechora, Dniester, Po, Danube, Rhine, Rhone, Northern Dvina, Tajo, Western Dvina, Vistula, Volga, Ebro, Elbe, Loire, Oder,

### 3- Identify the rivers.
