

10. The two-way table shows the number of Hala's soccer teammates that are in her Math class and English class.

	Math Class	Not in Math Class
English Class	4	2
Not in English Class	1	3

- How many teammates does Hala have?
- What is the relative frequency of teammates that are in both of Hala's classes to all of her teammates?
- Of the teammates in her math class, which percentage is greater: the percentage of teammates that are in her English class or the percentage of teammates that are not in her English class?
