Read the following message: Dear Olga, I want to write to you about my future career. This year I am completing my school and when you leave school, you understand that the time to choose your future profession has come. It is not an easy task to select the right job for you. There are a lot of different professions and it is really hard to pick the one, which would be both interesting as well as help you earn your living. Generally, I think that finding the right job is the biggest dilemma not only for a school-leaver, but also for all the family. I would like to become a teacher. In my opinion, to be a teacher is not an easy task because not only you need to love children, but also possess an ability to explain things clearly, know your subject profoundly and be an all-rounder person. Though this is not the easiest task, I am sure that I have got almost all the necessary qualities to become a really good educator. Nowadays it is very important to be proficient in a foreign language, especially English. I understand that this profession is greatly in demand and that is why I would like to become an English teacher. This year I am going to enroll at the department of foreign languages at the local University.
