

## ¡Vamos a recordar todo!

1. Realiza las siguientes adiciones en la recta numérica de las decenas. Para eso:  
Escribe la cantidad que representa cada salto en los recuadros.  
Ubica las cantidades en las casillas en el orden en que se dan los saltos.

Number line 1: Starts at 0, jumps to 50 (blue square), then to 70 (blue square). Record table: 

|   |   |
|---|---|
| D | U |
|   |   |
|   |   |
|   |   |

Number line 2: Starts at 0, jumps to 30 (blue square), then to 70 (blue square). Record table: 

|   |   |
|---|---|
| D | U |
|   |   |
|   |   |
|   |   |

Number line 3: Starts at 0, jumps to 50 (yellow square), then to 80 (yellow square). Record table: 

|   |   |
|---|---|
| D | U |
|   |   |
|   |   |
|   |   |

Number line 4: Starts at 0, jumps to 70 (blue square), then to 80 (blue square). Record table: 

|   |   |
|---|---|
| D | U |
|   |   |
|   |   |
|   |   |

Number line 5: Starts at 0, jumps to 40 (yellow square), then to 80 (yellow square). Record table: 

|   |   |
|---|---|
| D | U |
|   |   |
|   |   |
|   |   |

2. Utiliza el material que representa las decenas y completa con las decenas que hacen falta:

$$50 + \underline{\quad\quad} = 70$$

$$10 + \underline{\quad\quad} = 30$$

$$\underline{\quad\quad} + 40 = 50$$

$$20 + \underline{\quad\quad} = 60$$

$$30 + 50 = \underline{\quad\quad}$$

$$\underline{\quad\quad} + 50 = 90$$

3. Representa las cantidades escribiendo las cantidades en los recuadros:

4. Realiza las adiciones y sustracciones teniendo en cuenta las cantidades que aparecen

5. Observa muy bien y realiza las siguientes operaciones:

|   |   |   |   |                      |   |    |   |    |   |                      |
|---|---|---|---|----------------------|---|----|---|----|---|----------------------|
| 2 | + | 3 | = | <input type="text"/> | → | 20 | + | 30 | = | <input type="text"/> |
| 4 | + | 5 | = | <input type="text"/> | → | 40 | + | 50 | = | <input type="text"/> |
| 8 | - | 2 | = | <input type="text"/> | → | 80 | - | 20 | = | <input type="text"/> |
| 6 | - | 1 | = | <input type="text"/> | → | 60 | - | 10 | = | <input type="text"/> |
| 7 | + | 2 | = | <input type="text"/> | → | 70 | + | 20 | = | <input type="text"/> |
| 5 | - | 4 | = | <input type="text"/> | → | 50 | - | 40 | = | <input type="text"/> |

6. Resuelve las siguientes adiciones:

$$\begin{array}{r} 27 \\ + 61 \\ \hline \end{array}$$

$$\begin{array}{r} 10 \\ + 89 \\ \hline \end{array}$$

$$\begin{array}{r} 78 \\ + 20 \\ \hline \end{array}$$

$$\begin{array}{r} 14 \\ + 13 \\ \hline \end{array}$$

7. Resuelve las siguientes sustracciones:

$$\begin{array}{r} 38 \\ - 16 \\ \hline \end{array}$$

$$\begin{array}{r} 66 \\ - 52 \\ \hline \end{array}$$

$$\begin{array}{r} 51 \\ - 20 \\ \hline \end{array}$$

$$\begin{array}{r} 56 \\ - 24 \\ \hline \end{array}$$
