

Number the conversation in the correct order. The first sentence has been done for you.

B: Okay, and how many employees do you need?

A: Thank you! That sounds like exactly what I need!

A: I'm going to need somewhere between 70 and 90 staff members. I'll need managers, but the majority will be for production and filming.

A: I need your help. I have to set up a new branch of the business, but I don't know where to start. 1

B: Everything really. They'll bring in your staff for you, rent your office space and give you access to all the facilities you need.

B: That's a lot of staff. I think you should use a company to do the set up for you.

A: We produce advertising videos for our clients.

A: Yes, I thought that too. Are there any here? What will they be able to help me with?

B: Well, first of all, what's your business in?
