

Light Properties

I can build my knowledge

NAME:

CLASS: 5/

My **objective** is to identify the properties of light energy

Refer to **ALEF 132** to find answers for the following questions.....

1. What is meant by light?

2. How is light both wave and particle?

3. How are wavelength and frequency related?

Based on your research, reading and above questions, write a summary for light waves
