

HOW DO YOU TRAVEL AROUND THE CITY?

I go to work by rollerblades. It's a ¹fast (asft) way to travel and it's very ²h (ehtihya) because I get lots of exercise. Sometimes it feels quite ³d (dnesaurog) with so many cars around me, and it's a little ⁴i (icnietnveonn) because I need to change into shoes when I go into my office. But rollerblades are a lot of fun.

skateboard

I go everywhere by skateboard. True, it takes a long time to learn because it's ⁵d (idticulff) to ride one, but it's very ⁶c (ocneintenv) – when I go into a shop, I just pick up the skateboard and carry it like a book!

I use my scooter all around the city. It's ⁷s (eafs) it's ⁸e (yeas) to ride and it's more ⁹c (forebltaome) than rollerblades or a skateboard because balancing isn't a problem. Sometimes you see scooters with motors on them, but those are really ¹⁰p (tuinpogll). 'Go green,' I say!
