UNGROUPED FREQUENCY TABLES

Answer BOTH questions in the spaces provided for your answers.

1. A teacher decided to take a survey of the shoe sizes of students in her

    class. Here is a list of her findings.

8	6	6	6	5	7	5
6	6	7	8	5	6	7
6	6	5	5	7	5	7
9	5	6	7	8	6	5

Complete the frequency table below.

Shoe Size	Frequency
5	
6	
7	
8	
9	
TOTAL	

2. A survey was carried out among 50 children and they were asked about how many siblings they had. The following data was recorded.

3	3	2	1	1	0	2	3	3	4
2	3	2	5	4	2	3	1	3	4
5	1	2	2	3	0	1	1	3	3
1	2	2	3	2	3	1	2	1	1
4	4	2	3	3	2	2	4	2	1

Complete the frequency table below.

No. of Siblings	Frequency
0	
1	
2	
3	
4	
5	
TOTAL
