of Art

- Line** Line is a mark on a surface that describes a shape or outline. It can create texture and imply depth, width, and form. Types of line can include actual (implied, vertical, horizontal, diagonal and contour lines).
- Shape** Shape is a 2-dimensional line with no three or thickness. Shapes are flat and can be grouped into two categories: geometric and organic.
- Form** Form is a 3-dimensional object having volume and thickness. It is the illusion of a full object that can be touched with the use of light.
- Value** Value is the degree of light and dark in a color. It is the contrast between black and white and all the tones in between. Value can be used with color to create depth and texture.
- Color** Color is made up of three primary colors: red, yellow and blue. It is the hue or color. Value is the lightness and darkness. Hue and value make up the color. Saturation is the quality of brightness and purity.
- Space** Space is the area around, within, between and above objects.
- Texture** Texture is the quality of an object that we sense through touch. All objects have a physical texture. Artists can also create texture visually in two-dimensions.
