We went to the theatre last night to watch the play *The Jungle Book*. The stage was so beautiful. There was a big jungle with a dark blue sky. There was a gold star and a bright moon in the sky. They were made of paper. On one side there was a light-blue waterfall made of soft material. On the other side there were four plants, two gold and two green. They were made of rubber. There were two small birds on the plants. One of the birds had spotted wings. They were made of wool! It was very clever.
