

Social Reflection

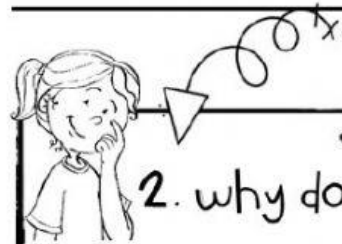

Jameson was showcasing his science project in the school hall. He was super proud of all of his hard work. Peter walked by and looked at Jameson's project. Peter said, "Volcanoes, huh? That's a pretty boring project. Why didn't you choose something more interesting?"

1. What do you think Jameson may be thinking?

3. How do you think Jameson felt when Peter called his project, 'boring'?

2. why do you think this?

4. Why would he feel this way?

5. What do you think Jameson may say back to Peter?

6. Why do you think he will say this?

7. The following week, Jameson saw Peter's painting in the art competition. How will what Peter said to Jameson affect what Jameson may say to Peter about his painting?

8. Even if Jameson thinks that Peter's painting is really good, do you think he will choose to compliment him? why/why not?
