Electricity Saving Tips

Draw a smile on the correct electricity saving tips and frown on those that are NOT.

	
Let the sun shine in! During the day when it is brighter outside, open the curtains and use the sunlight instead of turning on the lights.	Set the air-conditioner unit on high all the time.
	
Use the electric fan all the time!	Always use the shower heater.
	
Do not leave the refrigerator door open.	Dry clothes out in the sun instead of using a dryer.

Process skills: Analysing, Predicting

Which of the following are ways to save electricity?
Tick (✓) the correct circles.

☐ Turn off the lights when you leave a room.

☐ Leave the computer on when you are not using it.

☐ Choose machines that use less energy.

☐ Use the fan instead of the air-conditioner.

☐ Use the washing machine to wash a few pieces of clothing at a time.

☐ Hang the clothes out in the Sun to dry instead of using the clothes dryer.
