

Perimeter of Shapes

- (a) Find the missing lengths (b) Calculate the perimeter of the L shapes.

1)

$$X =$$

$$Y =$$

$$\text{Perimeter} =$$

2)

$$X =$$

$$Y =$$

$$\text{Perimeter} =$$

3)

$$X =$$

$$Y =$$

$$\text{Perimeter} =$$

4)

$$X =$$

$$Y =$$

$$\text{Perimeter} =$$

BJC review questions

1.

(a) Write down the length of x cm =

(b) Calculate the perimeter of the shaped.

$P =$

2.

(a) Write the length of x cm =

(b) Calculate the perimeter of the shape.

$P =$

3. The perimeter of the above diagram is 23cm.
Calculate the length of side marked x.

X =

4. Find the perimeter

P =

5. This is a picture of a window

Calculate the perimeter of the window.

5.

The perimeter of the rectangle above is 112cm . length is 30cm.
Calculate the width of the rectangle.
