BJC review questions

1.

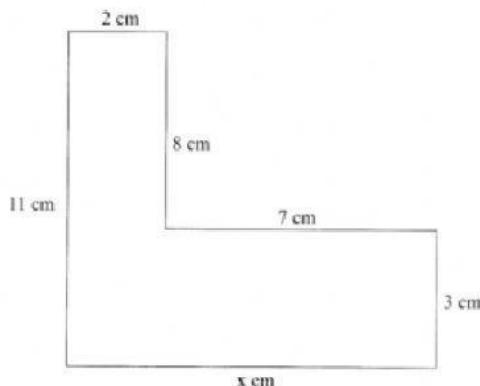

(a) Write down the length of x cm =

(b) Calculate the perimeter of the shaped.

$$P =$$

2.

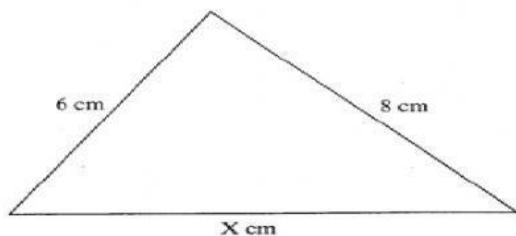

(a) Write the length of x cm =

(b) Calculate the perimeter of the shape.

$$P =$$

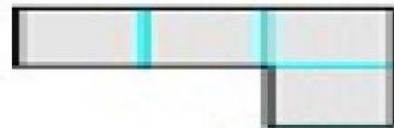

3. The perimeter of the above diagram is 23cm.

Calculate the length of side marked x.

$$X =$$

4. Find the perimeter

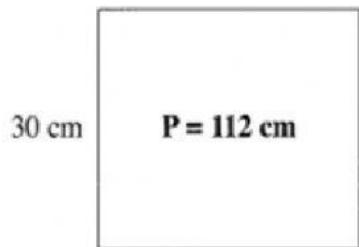

$$P =$$

5. This is a picture of a window

Calculate the perimeter of the window.

5.

The perimeter of the rectangle above is 112cm . length is 30cm.
Calculate the width of the rectangle.
