

Ordena los números de menor a mayor

1. Escribe en las canastas los números de 2 en 2 ordenadamente.

The image shows an apple tree with 10 apples, each with a number. The numbers are: 4, 12, 18, 8, 16, 10, 6, 22, 20, and 14. Below the tree, there are 10 baskets arranged in two rows of five. The first basket in the top row contains an apple with the number 2. Red arrows indicate a sequence starting from this basket, moving down to the first basket in the bottom row, then right to the second basket in the bottom row, and then right to the remaining baskets in the top row. This suggests a sequence of numbers starting from 2 and increasing by 2.

Ordena los números de menor a mayor

2. Escribe en las canastas los números de 2 en 2 ordenadamente.

The image shows an apple tree with several apples, each containing a number. Below the tree are two rows of five baskets each. The first basket in the first row contains an apple with the number 24. Red arrows indicate a sequence: a vertical arrow pointing down from the 24 apple to the first basket in the second row, and horizontal arrows pointing right from the first basket to the second basket in both the first and second rows.

| Row 1 | Row 2 |
|-------|-------|
| 24    |       |
|       |       |
|       |       |
|       |       |
