

## Practicing the Split Strategy

1) There are 63 pencils in the drawer. Sam placed 26 more pencils in the drawer. How many pencils are now there in total ?

$$63 + 26$$

$$\begin{array}{r} 60 \\ + 3 \end{array}$$

$$\begin{array}{r} 20 \\ + 6 \end{array}$$

$+$

Answer =

2) There are 75 trees currently in the park. Park workers will plant 11 more trees today. How many trees will the park have when the workers are finished ?

$$75 + 11$$
