

MGMT-LITTLE DARK AGE

Breathing in the dark

Lying on it's side

The of the day

Painted with a scar

And the more I out

The less it wants to try

The feelings start to rot

One at a time

Oh oh

Forgiving who you are

For what you to gain

Just know that if you hide

It doesn't go away

When you get out of bed

Don't end up

Horrified with each stone

On the stage

.....

Picking through the cards

Knowing what's

The carvings on the face

Say they find it hard

And thefailed again

All limits of disguise

The humor's not the same
Coming from

Oh oh

I in stereo
The stereo sounds strange
I know that if you hide
It doesn't go away
If you get out of bed
And find me standing all alone
Open-eyed
. the page
My little dark age
(Dark age, dark age, dark age)

I grieve in
The stereo sounds strange
You know that if it hides
It doesn't go away
If I get out of bed
You'll see me standing all alone
Horrified on the stage
My little dark age

Giddy with
Seeing what's to come

The image of the dead
Dead ends

Policemen swear to God
Love's from the guns
I know my friends and I
Would probably turn and run
If you get out of bed

Come find us..... for the bridge

Bring a stone

All the.....

My little dark age

I grieve in stereo

The stereo sounds strange

I know that if you hide

It doesn't go away

If youof bed

And find me standing all alone

.....

Burn the page

My little dark age

(Little dark age, little dark age)

(Little dark age, little dark age)

(Little dark age, little dark age)

All alone

Open-eyed

Burn the page

My little dark age
