The car **has not been transported yet**. — Машину еще **не** перевезли.

*Чтобы **задать вопрос** в пассивном залоге, необходимо поставить **вспомогательный глагол на первое место**.

Was the match canceled because of the weather? — Матч **отменили** из-за погоды?

*Если есть необходимость **указать, кем вы полняется действие**, в конце предложения ставим **предлог by + того, кто выполняет действие**.

The book **was written by an unknown author**. — Книга была написана неизвестным автором.

*Чтобы указать в пассивном залоге **предмет, инструмент, материал или ингредиент**, при помощи которого осуществлялось действие, используется **предлог WITH**:

The toys are made with paper, plastic or rubber. — Игрушки делают из бумаги, пластмассы или резины.

*При трансформации предложения из **активного залога в пассивный**, дополнение (**object**) становится подлежащим (**subject**), а **подлежащее становится агентом (agent)**:
