

Take away

Vocabulary

take away, less, altogether

6 take away 2 is 4.

$$6 - 2 = 4$$

Hint: Draw the jumps on the **number line** to find out how many **altogether**.

If the bird eats 3 worms how many are left?

$$8 - 3 = 5$$

If 5 eggs are broken, how many are left?

$$12 - 5 = \boxed{}$$

If 2 flowers die, how many are left?

$$6 - \boxed{} = \boxed{}$$

If 4 birds fly away, how many are left?

$$10 - \boxed{} = \boxed{}$$

If 3 lollipops are eaten, how many are left?

$$\boxed{} - \boxed{} = \boxed{}$$
