

Poslechni si nahrávku a doplň chybějící slova v textu:

We live on the Earth. The Earth is a planet. It rotates all the time. The Earth takes 24 hours to rotate completely.

There are eight planets in the solar system and they all go round the sun. Some planets go quickly and some planets go slowly. The Earth takes 365 days to go round the sun.

At night you can see the moon and the stars. The moon goes round the Earth. The moon takes 28 days to go round the Earth.

In the day you can see the sun. The sun is a very big star. It's 100 times bigger than the Earth! It's the only star you can see in the sky.

Doplň chybějící slova ve větách:

The Earth is a ...

The ... goes round the Earth.

2 The planets go round the ...

4 The sun is a big ...

Napiš anglický překlad:

žít

hodina

rychle

pomalu

noc

den

hvězda

měsíc

Vyber správné slovo a pak si zkontroluj s nahrávkou:

1 The **Earth** is a planet.
sun
moon

2 There are **two** planets in the solar system.
eight
twenty-four

3 The planets all go round the **Earth.**
sun.
moon.
