23c	31c	15c	34c	40c

1. Elisa wants to buy a cereal bar and a carton of milk.   How much would they cost together?

$$34 + 31 = 34 + 30 + 4 = \underline{\hspace{3cm}} c$$

2. Tristan wants to buy a bottle of water and a carton of milk. How much do they cost together?

$$\underline{\hspace{2cm}} c$$

3. What is the total price of a carton of milk and an apple?

$$\underline{\hspace{2cm}} c$$

4. Joe wants to buy a bottle of water and a packet of crisps.   He has 50c.   Does he have enough money?

$$\underline{\hspace{3cm}}$$
