

# SUNSET GRILL SONG ACTIVITY

Listen and choose the correct Word.

Let's go **down** / **up** to the Sunset Grill  
Watch the working girls go by  
Watch the basket people **walk** / **turn** around and mumble  
Gaze out at the auburn sky

There's an old man there from the **old** / **new** world  
To him, it's all the same  
Calls all his **customers** / **waiters** by name

You see a lot more meanness in the **town** / **city**  
It's the kind that eats you up inside  
Hard to come away with anything that feels like **integrity** / **dignity**  
Hard to get home with any pride

These days a man makes you somethin'  
And you **never** / **always** see his face  
But there is no hiding place

[Chorus]  
Down at the Sunset Grill 3x

Respectable **big** / **little** murders pay  
They get more respectable every day  
Don't worry, girl - I'm gonna stick by you  
And **someday** / **one day** soon we're gonna get in that car  
And get outta here

Maybe we'll leave **come spring** / **summer** time  
Meanwhile, have another **beer** / **whisky**  
What would we do without all these jerks anyway?  
Besides, all our **enemies** / **friends** are here
