

1. Completa las divisiones y selecciona que tipo de división es:

|                                                                                                                       |                                                                                                                        |
|-----------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| <br><br>-----<br><br> <br><br>-----  | <br><br>-----<br><br> <br><br>-----   |
| <br><br>-----<br><br> <br><br>----- | <br><br>-----<br><br> <br><br>----- |

2. Completa la resolución de las siguientes divisiones:

|                                                            |                                                             |                                                            |                                                            |
|------------------------------------------------------------|-------------------------------------------------------------|------------------------------------------------------------|------------------------------------------------------------|
| $\begin{array}{r} 12 \overline{) 2} \\ \hline \end{array}$ | $\begin{array}{r} 24 \overline{) 11} \\ \hline \end{array}$ | $\begin{array}{r} 45 \overline{) 9} \\ \hline \end{array}$ | $\begin{array}{r} 24 \overline{) 5} \\ \hline \end{array}$ |
| $\begin{array}{r} 24 \overline{) 6} \\ \hline \end{array}$ | $\begin{array}{r} 24 \overline{) 9} \\ \hline \end{array}$  | $\begin{array}{r} 36 \overline{) 6} \\ \hline \end{array}$ | $\begin{array}{r} 24 \overline{) 7} \\ \hline \end{array}$ |
