#### Questions 6 – 8

Read the statement below and answer the questions that follow.

The Bunsen burner was invented by Robert Wilhelm Bunsen in 1855. Bunsen (1811-1899) was a German chemist and teacher. He invented the Bunsen burner for his research in isolating chemical substances – it has a high-intensity, non-luminous flame that does not interfere with the coloured flame emitted by chemicals that are being tested.

*Adapted from <http://www.enchantedlearning.com/inventors/science.shtml>*

- 6 Where can you find the Bunsen burner?
- |                   |                   |
|-------------------|-------------------|
| A In hospitals    | C In supermarkets |
| B In laboratories | D In restaurants  |
