

Teacher: Gabriela Olivas/Carolina Pereira

Nivel/Level: 3<sup>rd</sup>

Primer Semestre / First Semester

**Tema/Topic: Distributive property**

**Instructions:** Solve the following math problems by putting into practice the distributive property.

1. Joe broke up an array of  $8 \times 5$  into two new arrays. Both of the new arrays are the same. What were the two arrays?

2. Mary broke up a large array into two smaller arrays. The two smaller arrays show  $3 \times 4$  and  $2 \times 4$ . What was the large array that Mary started with?
