

Parts of a map

READ THE DEFINITION AND WRITE THE NAMES

Compass rose - symbols - Grid coordinates- key-
contour lines- scale

Lines that show changes in height
for different areas of land on a map.

Small pictures on a map that
represent real things

An exact point on a map. Example:
in A3 there is a hotel

This shows how distances on a map
represent real distances.

This shows which way is "up" on
the map. North is always at the top
of the map.

This tell us what symbols
used on the map mean.
